

## REPORT ON DISASTER SAFETY AWARENESS

Under the patronage of the worthy Principal, **Prof. (Dr.) Neelofar Bhat**, today on the 19<sup>th</sup> of November, 2024, Department of Environmental Science/ Eco Club in collaboration with the State Disaster Response Force (SDRF), Baramulla organized a **Disaster Safety Awareness Programme** in the college to sensitize the students and the faculty regarding various types of disaster mitigation measures. The experts and participants were welcomed by Prof. Zameer Mumtaz who highlighted the need of such awareness programs to ensure minimal loss of life and property during such untoward emergency situations. The resources person for the event was Mr. Javaid Ahmad, Instructor SDRF, Baramulla, gave detailed account of different types of disasters with a special focus on Kashmir Valley. He discussed and demonstrated three main components in disaster management and mitigation i.e., search, rescue and evacuation by using simple available items at home and workplaces. He discussed in detail the first aid that can be given by any common first responder and also gave a practical demonstration of Cardio-pulmonary Resuscitation (CPR). The students and the staff showed active participation and some students enthusiastically volunteered in a few demonstrative activities. The event was concluded by a formal vote of thanks presented by Prof. Zameer Mumtaz.
