FROM PRINCIPAL'S DESK

For the last six months I have been minutely watching and reading my students in and outside the classroom activities. Deep in my heart, I had the hope to discover a wide variety of talents. By engaging the students in different co-curricular activities we unfolded the multi-fold capacities of the students which like the sun were clouded but not extinguished. Dear students, you have the curious and inquisitive minds, so "follow knowledge like a sinking star" and in achieving your goal of life always believe in "to strive, to seek and not to yield".

Government Degree College for Women, Baramulla is the best seat of learning for such talented students. The college not only provides you the best platform of academic excellence to meet the global challenges, but equally aims to develop high standards of conduct and integrity to prove you helpful to the humanity at large. The scholarship and industry of our talented and well-versatile staff are bound to give adequate guidance to our young learners and tailor them into fine scholars of head and heart. Your teachers are always there to guide you, to direct you and to help you whenever and wherever you face any difficulty. The only thing that we have to be true to one another so that we can build a new cosmos "so varied, so beautiful and so new".

Studying in a College is a unique experience in a student's life where he/she is molded into a mature and responsible citizen, ready to take up the challenges lying ahead in life.
