

Department of History

Government Degree College For Women Baramulla

History is amongst the earliest subject that was introduced in this college. Right from its inception a good number of students have been opting for this subject because of its academic significance and relevance for various competitive exams. The fundamental idea under which this department is working is to inculcate a true historical sense in our students and develop in them the habit of having an unbiased approach towards history. It is imperative that only a proper understanding of the past can help us in building a progressive future. We in the department try our best to inculcate in our students the habit of reading from primary sources and it's for this very reason that history section of College Library is always updated with new, latest and authentic books. In order to make subject lively and interesting, the department is establishing a museum in the college and also organises screening of documentaries, making and presenting assignments and presentations. In order to give practical experience to our students we take them on historical tours so as to familiarize them with our heritage and make past interesting for them.
